

Welcome to our first newsletter for 2012. The AMVL International Recruitment team have hit the ground running upon returning from the Christmas/New Year break and we have a big year ahead of us with Australian employers indicating that recruiting from overseas will remain a high priority in many industries as we try to fill the skills gap created by our resources boom. Read our newsletter below for an update on the latest from our *Recruitment Specialist*, John Young and some information on occupations we're currently recruiting for. To contact the AIR team, email jobs@australianmigrations.com

John's Update

Since our previous newsletter which went out late last year I've visited Perth in Western Australia to meet with some current and new clients of ours, discussing job vacancies that they need filled and how they're going to fill them given the shortage of skilled workers currently available in Australia. There's strong ongoing demand amongst our clients for Diesel Fitters with heavy duty experience especially in CAT and Komatsu and also for Drill Rig Fitters. I have another trip to Perth planned for the near future where I will follow up with these clients and discuss other opportunities for overseas skilled workers in trades and engineering industries.

Also looking ahead, Helen Duncan (Registered Migration Agent) and I will be travelling to Ireland at the end of February to conduct our Recruitment and Migration Campaign, exhibiting at the Dublin Working Abroad Expo on the 3rd and 4th of March and hosting an Australian Jobs and Migration Seminar in Kildare. If you live in Ireland and work in any of the below occupations, visiting us at the expo or our seminar would be a great opportunity to find out more about migrating to Australia.

Occupations we're currently focused on;

- Airconditioning and Refrigeration Mechanics
- Building Associates
- Diesel Motor Mechanics
- Electricians
- Engineers (all types)
- Engineering Technologists
- Equipment Hire Managers
- Fitters (General)
- Metal Fabricators
- Metal Machinists
- Panelbeaters
- Quantity Surveyors
- Sales Representatives (Industrial Products)
- Welders

After our campaign in Ireland I'll be travelling to Africa with one of our clients on another recruitment campaign, specifically for Heavy Duty Diesel Fitters, those with Surface Drill Rig experience in particular.

If you'd like to learn more about Helen's and my visit to Ireland please visit our campaign web page [here](#). Alternatively, please email jobs@australianmigrations.com for more information about AMVL International Recruitment and opportunities that we may have for you.

Occupations Update

All these positions include employer sponsorship;

Panel Beaters - URGENT Ready to relocate at short notice? We have jobs to fill in Mackay and Brisbane (Queensland), all starting at AUD \$50,000 per annum with exciting incentive packages on offer.

Drill Rig Fitters If you are a Diesel Fitter with experience in surface drill rigs we currently have a client in Western Australia looking to place 18 candidates in to positions. These jobs are fly in fly out (FIFO) from Perth (Western Australia) with a two week on, one week off roster.

Fitter & Turners We have a client in Gladstone (Queensland) who requires a Fitter & Turner who has shop floor experience in manual lathes, borers, milling machines and radial drill along with CNC milling machines (Mazac, BTC & QTC).

Surveyors There are a number of our clients interested in Surveyors with Cadastral and Engineering Surveying skills. Sound like you? Send us an email.

Welders/Metal Fabricators We are pleased to share that we have placed our first Metal Fabricator through AIR. We expect this to be the start of bigger and better opportunities in this area. Any candidates interested in applying for one these vacancies needs to have a heavy fabrication background. Currently we have some great opportunities in Mackay (Queensland), if you have experience in truck chassis modifications please do email me your CV/resume.

Agricultural Mechanics We continue to get requests from our clients for Diesel Mechanics with experience in tractor and farming machinery repairs. If you are willing to experience the Australian outback and rural areas be sure to email your CV/resume through to us. Rates range from AUD \$25 - \$32 an hour with relocation assistance offered.

Truck/HGV Mechanics Another area where we have a high demand. If you like working with trucks we have positions available in both coastal and country towns. Rates range from AUD \$25 - \$30 an hour depending on your experience.

Coates Hire - coming to the UK and Ireland in late March

Coates Hire will be travelling to the UK and Ireland in late March in search of the following;

- Diesel Mechanics (HGV, small engine & construction)
- Sales Coordinators (equipment hire, small engine, any machinery - motor cycle or motor vehicle background)
- Branch Managers (equipment hire and associated industries including building and construction, transport and machinery)

Does this interest you? Email jobs@australianmigrations.com to express your interest now.

Sent us a CV but haven't heard from us?

There might be many reasons why we haven't been able to connect you with an employer. Conditions can change quickly, and employers can withdraw from the market without notice. Sometimes it happens that companies don't respond to what we think are very good candidates, and sometimes there's just not a fit with your skills and experience.

At the end of the day, the cold reality is that not everyone that sends us a CV will get a job, as much as we'd like it to be otherwise. Please keep in mind that if we don't get an offer for you, we don't get paid, so it's very much in our interests to place you, but sometimes that just won't happen. All we can really guarantee is that if you don't send us a CV, you definitely won't ever get an offer from us.

Want updates on more than a monthly basis? Follow us on Twitter and like us on Facebook to see all the latest news, vacancies and updates with AMVL International Recruitment.
